Don’t Forget My Pets

What if something happened to you and there was no way to communicate that your pets were left at home alone? Your pets would need to be cared for. Without proper care, they would suffer and possibly die. This card is designed to alert emergency responders to the presence of pets in your home, so that an Animal Control Officer can take the necessary steps to arrange for care or provide sheltering.

DIRECTIONS:

There are two ways to use this card. The first is to complete the information, cut out the card and place it on your refrigerator. The second is to complete the information, fold it in half and place it next to your driver’s license in your wallet, purse or other ID carrier. You may laminate the card if you desire.

Address of Animals: ___________________________ ___________________________ ___________________________ ___________________________
Animal Type: __________________________________________________________
How Many? ___________________________ ___________________________ ___________________________ ___________________________

In the event of an emergency, my pets go to: (select one)
□ My veterinarian: ___________________________ ___________________________ ___________________________ ___________________________
